

Brown County REA's Wellspring program provides co-op members with an easy, affordable and meaningful way to support sustainable energy efforts. It is a voluntary program where members can purchase Wellspring wind or solar energy in 100 kilowatt hour (kWh) blocks. The cost per 100 kWh block of wind is \$.45. Solar is \$2.00/100 kWh block. Member can choose to purchase Wellspring for some or all of their monthly bill.

- ◆ Participating members pay an additional amount on their monthly electric bill.
- ◆ You must remain on the program for at least 12 months, after which you may discontinue at any time.
- ◆ Renewable energy is produced from large wind turbines, located mainly in southern Minnesota, northern Iowa or central North Dakota. The solar energy is produced by Great River Energy solar resources throughout Minnesota.

Sign me up for Wellspring!

Name on electric bill _____

Address _____

City/State/Zip _____

Phone _____ Cell Phone _____

Select one (solar):

_____ 100 kWh (\$2) _____ 200 kWh (\$4) _____ 300 kWh (\$6)

_____ 400 kWh (\$8) _____ 500 kWh (\$10)

Select one (wind):

_____ 100 kWh (45¢) _____ 200 kWh (90¢) _____ 300 kWh (\$1.35)

_____ 400 kWh (\$1.80) _____ 500 kWh (\$2.25)
